

Information about session fees & rebates

Please note that Mudgee Psychology is a private practice and as such fees are payable for services provided, even with a GP referral. Note that our fees are well below the recommended scheduled fee for psychological services which is \$246 per 50 minute consultation.

Medicare rebates are available to cover *part of* the session fee only if your GP refers under a Mental Health Care Plan (MHCP) and makes a referral. A MHCP allows 10 sessions to be rebated (though you need a GP review after your first 6 sessions to continue claiming the rebate for the other 4 sessions).

Private health funds may provide full/partial rebates for psychological services, please check with your fund.
